

HUMAN PAPILLONA VIRUS (HPV) VACCINATION CAMPAIGN 2015

The first round of the HPV vaccination campaign starts from 23 February to 20 March 2015. The campaign is conducted by the Department of Health to protect young girls from getting cervical cancer caused by Human Papilloma Virus. All girls in grade four who are 9 years and older will be vaccinated provided that their parents have signed the consent forms. The estimated number of girls to be vaccinated is 500 000 in 18 000 public schools.
