*Employee numbers as at 31 March 2019.

#Note that the sites are aggregated and are varied in number of employees especially in Port Health Services and economies of scale in delivering the medical screening service needs to be factored into cost calculations.

The medical screening services should be costed as unit costs per employee for the clinical assessment noting that the clinical assessments could be undertaken by an occupational health nurse or occupational medical practitioner with some assessments augmented by the social worker and clinical psychologist.

In addition, the costs of delivering the medical screening service of individual employees need to be factored into your cost based on the model of delivery that the vendor would apply and site where the service will be rendered. It may be a combination of fixed and mobile facilities for the clinical and diagnostic assessment. It is expected that a full clinical assessment including vital signs and screening ‘dipstick’ tests plus diagnostic services such as chest X-rays, spirometry, audiometry and vision screening (where indicated) be provided on site with the ability to take pathology specimens on site (where indicated) for referral to the pathology service provider.

In the event where NDOH employees have to be moved to a site based on economies of scale and reasonable distance then that cost will be borne by the NDOH. However, the methodology should as far as possible provide for medical screening at a NDOH facility or close to a NDOH facility except where the numbers of employees to be screened do not justify the expense of providing the service at that site. Note that some NDOH sites may have fixed facilities for clinical assessments and thus the price can be adjusted accordingly if the site facility is suitable for the medical screening activity. This can be done during contract negotiations.

**Note 3: Diagnostic Tests**

The minor diagnostic tests (during clinical evaluation) and major diagnostic costs (chest X-rays, spirometry, audiometry and pathology tests) must be costed as unit costs (per test per employee) excluding VAT. The referrals (to specialists) will be costed separately and not needed as part of this RFP as at this stage it is not known what and how many referrals are needed; and if any further interventions will be needed for the employees if considered to be an occupational health related problem. The **unit cost per diagnostic test excluding VAT should be included in this annexure** as an indication of the costs of provision of the tests.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

\(^3\) Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

Request for proposals (RFP)

HAZARD IDENTIFICATION / HEALTH RISK ASSESSMENT, MEDICAL SCREENING AND SURVEILLANCE PROGRAM OF THE NDOH (NDOH 06 /2019-2020)

23 March 2019
REQUEST FOR PROPOSALS FOR THE HAZARD IDENTIFICATION / HEALTH RISK ASSESSMENT, MEDICAL SCREENING AND SURVEILLANCE PROGRAM OF THE NDOH FOR A PERIOD OF THREE YEARS

The NDOH invites proposals from service providers that can render hazard identification and health risk assessment, medical screening and surveillance services for the NDOH.

The services required are as follows:

1. Provide hazard identification and health risk assessment (HIHRA) of the employees of the NDOH across South Africa.

2. Link the HIHRA to the approximately 1800 employees of the NDOH to determine the types of medical screening of employees and nature of the surveillance program for the NDOH.

3. Medical screening (initial, periodic, return-to-work, exit and special assessments) based on HIHRA will be conducted using clinical examinations (by the occupational medical and occupational health nursing practitioners) and diagnostic tests; with analysis, interpretation and reporting of the assessments and diagnostic tests. (The costs of the diagnostic tests will be paid separately by the NDOH and will be costed by the vendor in this RFP in a separate annexure – indicative unit costs should be given in a separate annexure).

4. Ensure an appropriate referral system is in place for employees with occupational health related problems picked up during the medical screening process. (The costs of the referral of employees with occupational health problems will not be part of this RFP but will be costed separately based on the nature of the problem and the referral – this is not needed as part of this RFP; non-occupational health related problems will be discussed with the individual and referred to appropriate private or public providers for own cost of individual).

5. Provide a surveillance programme covering systematic collection, analysis and interpretation of the occupational medical and HIHRA data for planning, implementation and evaluation of employee health and monitor trends of healthy employees and occupational injury and illness. The medical screening data will enrich the surveillance programme.

6. Ensure proper record keeping and access of the NDOH and its employees to the occupational health records based on good practice for health records
management – in particular occupational health records - noting the confidentiality of health records / occupational health records.

7. Provide feedback and reports to the individuals, groups (anonymised data) and management (anonymised data) at time intervals and meetings determined by the NDOH.

8. Assist the NDOH in preparation and presentation of reports to the regulatory authorities and stakeholders.

9. Work within a bipartite framework of management and employee representatives.

10. Provide a workplan and budget.

Notes:

2. All data and records (electronic and manual) collected for the purposes of this tender are the property of the NDOH. In the event of a change in service provider during or at the end of the tender award period, the data and records must be transferred to the other service provider or NDOH specified occupational health practitioner, agency or institution within 3 months of change of service provider. The transfer of the data and records will be free of any charges to the NDOH or the new service provider.

3.
