CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

1. Background and Introduction

In 2015, the governments of Mozambique, South Africa, and Eswatini (MOSASWA) signed the MOSASWA Cross-border Malaria Initiative Declaration. The goal laid out in the Declaration is “to work collaboratively to accelerate from control to pre-elimination in southern Mozambique and accelerate the transition from pre-elimination to elimination of malaria in Eswatini and South-Africa, so as to achieve zero local transmission in Eswatini, South Africa and Maputo province by 2020 and achieve pre-elimination (Test Positivity Rate<5%) status in southern Mozambique (Gaza and Inhambane Provinces) by 2025". South Africa and Mozambique have engaged in various malaria elimination efforts through MOSASWA to achieve their individual goals, including the establishment of cross-border mobile surveillance units for the testing and treatment of mobile migrant populations.

In 2018, the South African government commissioned a national investment case for malaria elimination which generated important findings for malaria efforts in South Africa and for the southern Africa region. The key finding of the investment case is that malaria cannot be eliminated in South Africa without the reduction of malaria incidence in southern Mozambique (the largest source of imported cases into South Africa).

Taking into account the regional elimination strategy, the South African National Department of Health (NDOH) has developed a co-financing agreement with Mozambique and has allocated funding towards Indoor Residual Spraying (IRS) in southern Mozambique for financial years’ (April – March) 2020 and 2021 which will be implemented through a competitive bidding process. This funding will complement existing MOSASWA funding in Mozambique, by catering for interventions in the Southern Mozambique operational plan that were unfunded.

The co-financing agreement will be awarded in two tenders. Part A will consist of the implementation of IRS in selected districts of southern Mozambique provinces Inhambane and Gaza. Part B will encompass the provision of operational research and monitoring & evaluation of the IRS implementation and impact. Although bidding for Part A and Part B of the tender is allowable, both components will not be awarded to the same bidder.
