ONLINE BRIEFING SESSION – 16 JULY 2021
QUESTIONS AND ANSWERS
HP13-2022ARV

No.	Question	Answer
1	Item 10 and Item 11 are the same items, however item 11 competes in the class 1 option, does it mean that even if item 11 loses to item 8 NDoH still wants the Darunavir molecule. Can we tender with the same product for both item 10 and 11	Yes, Darunavir is required. You can offer the same product for both items 10 & 11. You Can also submit one sample but make sure you mark the samples by indicating the relevant item numbers the samples are submitted for.
2	Please advise whether there is any opportunity to consider products currently under registration at current time? We have a DLT in registration, we are expecting an expedited registration, have a level 1 BB-BEE status. We would like to put forward a price and would like to be considered for a share of the tender in the latter part of the tender period, subject to successful registration. Please advise on viability.	In terms of the SRCC all items should be registered at the time of the bid closure. Certified copies of legislative documents must also be included at the time of bid closure.
3	Item 18 calls for Dolutegravir 50mg, only 30's has been printed, is this a typing error not to give an option for 28's or does NDoH specifically want 30's on this item as we have been supplying 28's in the current tender	Offers for pack sizes of 28's and 30's will be acceptable. Please refer to Paragraph 20 Award Condition of the SRCC for further details.
4	Indication of Reference Price to be supplied. Please advise	The reference prices have been published. Please refer to the the NDoH website.
5	If we have to comply with delivery lead time, what happens when the depots are not paying the companies.	Kindly refer all payment inquiries to the Provinces and Contract Management Unit.
6	How do we access recording of the session.	The recording will not be available; however, the presentation will be available on the NDOH website
