GOVERNMENT PROCUREMENT
GENERAL CONDITIONS OF CONTRACT
July 2010

NOTES

The purpose of this document is to:

- (i) Draw special attention to certain general conditions applicable to government bids, contracts and orders; and
- (ii) To ensure that clients be familiar with regard to the rights and obligations of all parties involved in doing business with government.

In this document words in the singular also mean in the plural and vice versa and words in the masculine also mean in the feminine and neuter.

- The General Conditions of Contract will form part of all bid documents and may not be amended.
- Special Conditions of Contract (SCC) relevant to a specific bid, should be compiled separately for every bid (if applicable) and will supplement the General Conditions of Contract. Whenever there is a conflict, the provisions in the SCC shall prevail.

General Conditions of Contract

1. Definitions

1. The following terms shall be interpreted as indicated:
 - 1.1 “Closing time” means the date and hour specified in the bidding documents for the receipt of bids.
 - 1.2 “Contract” means the written agreement entered into between the purchaser and the supplier, as recorded in the contract form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
 - 1.3 “Contract price” means the price payable to the supplier under the contract for the full and proper performance of his contractual obligations.
 - 1.4 “Corrupt practice” means the offering, giving, receiving, or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution.
 - 1.5 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidized by its government and encouraged to market its products internationally.
 - 1.6 “Country of origin” means the place where the goods were mined, grown or produced or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its components.
 - 1.7 “Day” means calendar day.
 - 1.8 “Delivery” means delivery in compliance of the conditions of the contract or order.
 - 1.9 “Delivery ex stock” means immediate delivery directly from stock actually on hand.
 - 1.10 “Delivery into consignees store or to his site” means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
 - 1.11 "Dumping" occurs when a private enterprise abroad market its goods on own initiative in the RSA at lower prices than that of the country of origin and which have the potential to harm the local industries in the

RSA.

- 1.12 "Force majeure" means an event beyond the control of the supplier and not involving the supplier's fault or negligence and not foreseeable. Such events may include, but is not restricted to, acts of the purchaser in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
- 1.13 "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any bidder, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the bidder of the benefits of free and open competition.
- 1.14 "GCC" means the General Conditions of Contract.
- 1.15 "Goods" means all of the equipment, machinery, and/or other materials that the supplier is required to supply to the purchaser under the contract.
- 1.16 "Imported content" means that portion of the bidding price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or his subcontractors) and which costs are inclusive of the costs abroad, plus freight and other direct importation costs such as landing costs, dock dues, import duty, sales duty or other similar tax or duty at the South African place of entry as well as transportation and handling charges to the factory in the Republic where the supplies covered by the bid will be manufactured.
- 1.17 "Local content" means that portion of the bidding price which is not included in the imported content provided that local manufacture does take place.
- 1.18 "Manufacture" means the production of products in a factory using labour, materials, components and machinery and includes other related value-adding activities.
- 1.19 "Order" means an official written order issued for the supply of goods or works or the rendering of a service.
- 1.20 "Project site," where applicable, means the place indicated in bidding documents.
- 1.21 "Purchaser" means the organization purchasing the goods.
- 1.22 "Republic" means the Republic of South Africa.
- 1.23 "SCC" means the Special Conditions of Contract.
- 1.24 "Services" means those functional services ancillary to the supply of the goods, such as transportation and any other incidental services, such as installation, commissioning, provision of technical assistance, training, catering, gardening, security, maintenance and other such

obligations of the supplier covered under the contract.

1.25 “Written” or “in writing” means handwritten in ink or any form of electronic or mechanical writing.

2. Application

2.1 These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services, sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.

2.2 Where applicable, special conditions of contract are also laid down to cover specific supplies, services or works.

2.3 Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

3. General

3.1 Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a non-refundable fee for documents may be charged.

3.2 With certain exceptions, invitations to bid are only published in the Government Tender Bulletin. The Government Tender Bulletin may be obtained directly from the Government Printer, Private Bag X85, Pretoria 0001, or accessed electronically from www.treasury.gov.za

4. Standards

4.1 The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

5. Use of contract documents and information; inspection.

5.1 The supplier shall not, without the purchaser’s prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.

5.2 The supplier shall not, without the purchaser’s prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.

5.3 Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier’s performance under the contract if so required by the purchaser.

5.4 The supplier shall permit the purchaser to inspect the supplier’s records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

6. Patent rights

6.1 The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

7. Performance security

- 7.1 Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.
- 7.2 The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.
- 7.3 The performance security shall be denominated in the currency of the contract, or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:
 - (a) a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or
 - (b) a cashier's or certified cheque
- 7.4 The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified in SCC.

8. Inspections, tests and analyses

- 8.1 All pre-bidding testing will be for the account of the bidder.
- 8.2 If it is a bid condition that supplies to be produced or services to be rendered should at any stage during production or execution or on completion be subject to inspection, the premises of the bidder or contractor shall be open, at all reasonable hours, for inspection by a representative of the Department or an organization acting on behalf of the Department.
- 8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.
- 8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the supplies to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.
- 8.5 Where the supplies or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such supplies or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.
- 8.6 Supplies and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.
- 8.7 Any contract supplies may on or after delivery be inspected, tested or

analyzed and may be rejected if found not to comply with the requirements of the contract. Such rejected supplies shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirements of the contract. Failing such removal the rejected supplies shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute supplies forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the supplier.

8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 23 of GCC.

9. Packing

9.1 The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size and weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.

9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, if any, specified in SCC, and in any subsequent instructions ordered by the purchaser.

10. Delivery and documents

10.1 Delivery of the goods shall be made by the supplier in accordance with the terms specified in the contract. The details of shipping and/or other documents to be furnished by the supplier are specified in SCC.

10.2 Documents to be submitted by the supplier are specified in SCC.

11. Insurance

11.1 The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified in the SCC.

12. Transportation

12.1 Should a price other than an all-inclusive delivered price be required, this shall be specified in the SCC.

13. Incidental services

13.1 The supplier may be required to provide any or all of the following services, including additional services, if any, specified in SCC:

- (a) performance or supervision of on-site assembly and/or commissioning of the supplied goods;
- (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;
- (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;

- (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and
- (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14. Spare parts

14.1 As specified in SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and
- (b) in the event of termination of production of the spare parts:
 - (i) Advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and
 - (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15. Warranty

15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2 This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.

15.3 The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.

15.4 Upon receipt of such notice, the supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in SCC, the purchaser may proceed to take

such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

- 16. Payment**
- 16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in SCC.
- 16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.
- 16.3 Payments shall be made promptly by the purchaser, but in no case later than thirty (30) days after submission of an invoice or claim by the supplier.
- 16.4 Payment will be made in Rand unless otherwise stipulated in SCC.
- 17. Prices**
- 17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized in SCC or in the purchaser's request for bid validity extension, as the case may be.
- 18. Contract amendments**
- 18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.
- 19. Assignment**
- 19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.
- 20. Subcontracts**
- 20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contracts if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.
- 21. Delays in the supplier's performance**
- 21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.
- 21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.
- 21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.
- 21.4 The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the

supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without canceling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the Supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any

person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer / Authority will, at the discretion of the Accounting Officer / Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the Accounting Officer / Authority actively associated.

23.6 If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:

- (i) the name and address of the supplier and / or person restricted by the purchaser;
- (ii) the date of commencement of the restriction
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which

may be due to him

25. Force Majeure

- 25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.
- 25.2 If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

- 26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

- 27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.
- 27.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.
- 27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.
- 27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.
- 27.5 Notwithstanding any reference to mediation and/or court proceedings herein,
- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
 - (b) the purchaser shall pay the supplier any monies due the supplier.

28. Limitation of liability

- 28.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;
- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and

- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.
- 29. Governing language** 29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.
- 30. Applicable law** 30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in SCC.
- 31. Notices** 31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice
- 31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.
- 32. Taxes and duties** 32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.
- 32.2 A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.
- 32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate, submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.
- 33. National Industrial Participation Programme (NIP)** 33.1 The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.
- 34 Prohibition of Restrictive practices** 34.1 In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder (s) is / are or a contractor(s) was / were involved in collusive bidding (or bid rigging).
- 34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act No. 89 of 1998.

- 34.3 If a bidder(s) or contractor(s), has / have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and / or terminate the contract in whole or part, and / or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding ten (10) years and / or claim damages from the bidder(s) or contractor(s) concerned.

THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 **To be completed by the organ of state**

(delete whichever is not applicable for this tender).

- a) The applicable preference point system for this tender is the 90/10 preference point system.
- b) The applicable preference point system for this tender is the 80/20 preference point system.
- c) Either the **90/10 or 80/20 preference point system** will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of

this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.
- 1.7 The company must submit ID copies of Directors and or shareholders with their bid document or quotation to substantiate points claimed. The share certificate reflecting the number of shares held by each member or director of the company to qualify for the points claimed must be submitted. In case of a claiming points for disability the company must submit a registered Doctor noted or document as evidence of the disability.

2. DEFINITIONS

- (a) “**tender**” means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) “**price**” means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) “**rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right) \quad \text{or} \quad Ps = 90 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80 \left(1 + \frac{Pt - Pmax}{Pmax} \right) \text{ or } Ps = 90 \left(1 + \frac{Pt - Pmax}{Pmax} \right)$$

Where

- Ps = Points scored for price of tender under consideration
Pt = Price of tender under consideration
Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.)

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

1. Introduction

The National Department of Health (NDoH) calls for competitive bids for the appointment of a service provider to manage and maintain the South African District Health Information System for a period of three years.

2. Background

The National Department of Health (NDoH) is required in terms of the National Health Act (Act 61 of 2003) to facilitate and coordinate the establishment, implementation and maintenance of the information systems by provincial departments, district health councils, municipalities and the private health sector at national, provincial and local levels in order to create a comprehensive national health information system. One such system is the District Health Management Information System (DHMIS), which is a system for deriving a combination of health statistics from various sources, mainly from routine information system used in the public sector to track health service delivery in sub-districts, districts, provinces and nationally. The District Health Management Information System is an integrated aggregated service delivery information system used at facility, district, province and national to monitor health sector performance and also meet regular statutory reporting requirements.

Section 40(1)(a) of the Public Finance Management Act (Act 1 of 1999) (PFMA) relating to the accounting officers' reporting responsibilities states that the accounting officer for a department must keep full and proper records of the financial affairs of the department in accordance with any prescribed norms and standards. In terms of section 15(2)(b) of the Public Audit Act (Act 25 of 2004), in order to comply with applicable legislated auditing and tabling deadlines in the PFMA, the health departments (Provincial and National) should adhere to the requirement that all documentation and information in support of the annual performance report must be available on request and be retrievable within a reasonable time. This will allow adequate time for conducting the audit in accordance with the relevant auditing standards.

The use of District Health Information System for routine health management in South Africa started in 2000. Between 2011 and 2014, the District Health Information System 1.4 (DHIS1.4) software was customised to meet South African Health Information System (HIS) requirements for routine data management.

Between 2014 and 2017 South Africa prepared for and initiated a transition of the DHIS1.4 routine health information system to a web-based version. The District Health Information System transition supported the re-engineering of systems and processes to meet the demands of a web-based system. The District Health Information System transition involved an extensive capacity building for various categories of health care workers including data capturers, information officers, Programme Managers as well as the technical staff. Capacity building was prioritised to ensure that adequate capacity and skills are developed on data management and information use for decision-making. In addition, the development and strengthening of data management tools, Standard Operating Procedures (SOPs), and data quality monitoring and feedback support were also undertaken.

Between 2017 and 2020, the National Department of Health continued the District Health Information System transition, institutionalising the skills to use the system and data within the sector. Other activities included further integration of various information systems into District Health Information System (such as the TIER.Net and EDRWeb data), expanding the functionality of information systems. This was done primarily to improve the use of information, supporting NDoH programmes to realise sustainable information management practices, and providing District Health Information System hosting to meet best practice standards.

Since 2020, the focus has been on District Health Information System hosting, maintenance, and configuration of the system, to cater particularly for National Indicator Data Set (NIDS) revisions, changes in the municipal demarcation as well as capacity building for all District Health Information System users. During this period, automation of data processing and synchronisation of Provincial and National data files and custom software development for the South African environment were undertaken. Health Analytics dashboards were also developed for NDoH Programmes, management and decision-making.

DHIS2 is an open source, web-based platform most commonly used as a health management information system (HMIS). In this regard, the NDoH has a non-exclusive license to use the District Health Information System software modules.

The District Health Management Information System Policy serves as an overarching policy for the use of District Health Information System together with the relevant Standard Operating Procedures (SOPs).

3. Overview of District Health Information System

This section covers an overview of the existing District Health Information System landscape.

3.1 General

The District Health Information System used in South Africa has multiple instances, and each has an organisation hierarchy where the names of all public health facilities are captured according to the following hierarchy: province, district, sub-district, health facility, and reporting unit within or under a health facility. The hierarchy is continually aligned with the Master Health Facility List (MHFL). A District Health Information System instance consists of the District Health Information System database, a PostgreSQL database, and the DHIS2 application front-end which is web-based. Each instance is hosted on a server with the database server and one or more web servers accessible through a URL.

The District Health Information System hosting environment is scalable and continues to implement appropriate cybersecurity standards. Each District Health Information System instance provides appropriate data capturing, quality checks, and reporting through dashboards. The reporting components provide data per facility and aggregated reports that summarise data according to the facility level hierarchy. The dashboards display data in graphical format. The reporting and dashboard components have various filters to enable the user to generate reports at different levels of care (national, provincial, district, sub-district, facility). Other important reporting filters include facility ownership (provincial or local government facilities), facility type (clinic, community health centre, hospitals), period (according to the department financial years) and additional filters which are specific to each instance. The system also provides offline data entry via the web or mobile interfaces. Appropriate user guides and SOPs are maintained to support users and govern how the system should be used.

In addition to the National instance, nine Provincial District Health Information System instances are used in provinces to capture and manage District Health Information System data. The District Health Information System instances are:

3.2 National Data Dictionary

The National Department of Health Data Dictionary provides a reference point for selected health information standards to support health care activities within South Africa. It has been developed to support the District Health Management Information Systems (DHMIS) policy in South Africa, and specifically to facilitate data exchange between electronic systems used to support the DHMIS policy. The Data Dictionary provides the most up-to-date version of data set specifications (specifically, data elements, indicators, and data validation rules) and the organisational unit hierarchies. The Data Dictionary is aligned to the Master Health Facility List. The Master Health facility List is a complete, up-to-date, authoritative list of all the health establishments in the country.

The Master Facility List includes the data needed to accurately identify each facility, such as facility name, unique facility identifier, location, and contact information, as well as administrative data to categorise the facility, such as facility type, ownership, and operational status. These elements define the signature domain and makes the health facility unique.

3.3 National Integrated District Health Information System instance

The National District Health Information System instance is available at the NDoH level. It contains data for all nine Provinces and data from various other National instances which collect NIDS data elements. Once the instance is available, data exchange mechanisms are defined and run regularly to populate the National District Health Information System database. The National District Health Information System instance is not a transactional system that captures data directly. Instead, other District Health Information System instances and other Health Information Systems synchronise data values for data elements into this instance based on the approved data-flow policy.

3.4 National Quarterly Performance Reporting instance

The National Department of Health is responsible for quarterly and annual reporting of performance information to the Department of Planning, Monitoring and Evaluation (DPME) on Quarterly Performance Indicators per Health Programme against the Annual Performance Plan (APP), the Medium-Term Strategic Framework and the Presidential Health Compact. This covers routine health data and qualitative data, which requires supporting evidence which is captured through the National Quarterly Reporting System (NQRS). The NQRS aims to create a platform where quarterly performance is reported against quarterly and annual targets and documentary evidence is uploaded to substantiate the reported performance achievement. The system aims to improve reporting efficiency and allow easy access to evidence against the health sector's quarterly and annual reports.

3.5 ART and TB Quarterly data

All provinces use the ART Quarterly instance to import data from TIER.Net for standardised reporting of aggregated ART data at all levels. In the case of DR-TB data, the source reports are generated by the districts after receiving the export file from the officer responsible for importing DR-TB data into District Health Information System .

3.6 Integrated School Health Programme (ISHP) instance

The National Department of Health, jointly with the National Department of Basic Education (DBE) and the Department of Social Development, initiated the Integrated School Health Program (ISHP). The ISHP is primarily designed to determine targets for implementing targeted interventions for school-going children.

3.7 Rapid Internal Performance Data Audit (RIPDA) instance

The District Health Management Information Systems (DHMIS) Policy requires quarterly reviews of health programme data to be conducted, and appropriate remedial interventions to improve data quality. In addition, all health facilities are required to prepare monthly data reconciliation between source documents and the databases into which they are captured. This ensures that data used for planning and decision-making complies to data standards and this is a requirement by the Auditor-General South Africa (AGSA).

Rapid Internal Performance Data Audit (RIPDA) is either conducted by NDoH, Provinces, Districts or health facilities to enhance data quality and feedback at all levels. RIPDA is used for internal auditing purposes of performance information and mimics the AGSA audit process which allows provinces to ensure adequate internal controls.

3.8 Malaria instance

The Malaria instance is a District Health Information System tracker instance which works in conjunction with other Integrated Disease Surveillance and Response (IDSR) reporting in the country. It is used mostly in Malaria endemic provinces but other provinces also report Malaria cases into the system. Specific synchronisation processes are in place to synchronise directional Malaria cases between the Malaria Information System and the National Institute for Communicable Diseases (NICD) system, which also contains laboratory-confirmed Malaria cases, allowing for de-duplication, triangulation and resolving of discrepancies.

3.9 Patient Experience of Care instance

As part of monitoring the quality of services provided by the Department of Health, there is an expectation that patients' experience at health facilities be assessed annually using the Patient Experience of Care (PEC) surveys. The purpose of the PEC tool is to provide a vehicle for the capture, analysis and reporting of PEC surveys conducted at health facilities in the country.

4. Scope of work

The NDoH will appoint a service provider to render the following services: hosting, maintenance, customisation and enhancements, updates, linkages and support of the existing District Health Information System for the National Department of Health for a period of three (3) years. The scope of work is further defined below:

4.1 Support the District Health Information System through:

4.1.1 Database development and configuration

This sub-objective supports the development of specific District Health Information System databases to meet evolving NDoH needs. Deliverables include developing a functional District Health Information System database piloted and adapted with training materials.

4.1.2 Software enhancements

Support the enhancement of the District Health Information System software or reporting requirements to meet the specific needs of the South African environment.

4.1.3 Policy Guidelines and other HIS resources

The District Health Information System is implemented in accordance with the District Health Management Information Systems (DHMIS) Policy and the relevant Standard Operating Procedures (SOPs) to adhere to defined data flow as stipulated for the various reports including Monthly, Quarterly and Annual Reports. The Policies and SOPs seek to achieve standardisation in data collection, capturing, collation, storage, analysis and transmission of data to various levels of the health system.

5. Support health information system reporting and data use

5.1 Data Management

The NDOH requires critical data to manage health service delivery and perform the Monitoring and Evaluation (M&E) activities. For this reason, the service provider must manage the District Health Information System and ensure availability of routine performance data for monthly, quarterly as well as the annual reporting requirements as defined in the departmental and DPME guidelines. The integrity of the database must be maintained, and regular version testing and upgrading conducted to enhance data output.

5.2 Data Quality Improvement

The service provider will be required to produce monthly Data Quality reports in line with the Departmental Data Quality Improvement initiatives. The service provider will also provide capacity building to the Departmental staff to generate these Data Quality reports to facilitate data quality improvement throughout the system.

5.3 Data Analytics

The DHIS2 software platform has a number of built-in features and tools to support data analysis and data management. The service provide will be required to enhance and customise appropriate analytics for use in the District Health Information System for the South African environment. The reporting services layer will need to pull data from multiple systems into a Business Analytics tool to render advanced data analytics for District Health Information System .

5.4 Hosting

The service provider will be expected to provide a secure and reliable hosting platform for District Health Information System databases and applications. The service provider must ensure that hosted services remain innovative, relevant, and up-to-date with current and changing technological advancements for users to utilise data to improve health outcomes effectively. The service provider must also ensure that cybersecurity practices are followed and the District Health Information System complies to industry standards. The system must maintain adequate front and back-end security measures including SSL certificates, firewalls, intrusion protection, user authentication, separation of databases and application. The bid proposal must include an approach for Business Continuity for District Health Information System and define the backup and disaster recovery mechanisms.

Data integrity is also of paramount importance and in this regard, District Health Information System databases must be protected against data degradation. The District Health Information System must meet and maintain specific requirements in the following areas:

- Information/data security to allow for changes in technology and business needs,
- Authentication
- District Health Information System Change Control
- User Management, Role Management and Change Requests as well as User Permission
- A complete audit trail of all activities by users as well as system administrators and operations using log reports.

5.5 Capacity Building

The proposal must provide a detailed approach for capacity building for National, Provincial, District and Facility levels to ensure optimum functionality of the system, high quality data and data utilization. Capacity Building should cater for all user groups including data capturers, facility managers, programme managers, data managers and analysts, database administrators, network and infrastructure administration. In addition, capacity building must also cater for data analysis and reporting as well as data quality monitoring and interventions, data reviews and use of internal audit tools as well as monthly reconciliation.

6. Management, monitoring and evaluation and reporting

6.1 Management

The performance of the service provider will be monitored through a Service Level Agreement which will be effected through an annual workplan with clear set deliverables for each financial year. Project Management methodologies will be followed in executing and managing the contract.

6.2 Monitoring

Monitoring of progress on objectives must be achieved through regular formal and informal processes, site visits and inclusive of project and technical meetings between NDOH and the service provider to monitor the Service Level Agreement.

6.3 Reporting

Strict quarterly reporting on the annual workplan deliverables as well as financial expenditure reporting will be adhered to. An Annual Report will be produced at the end of each financial year.

6.4 Data Governance

In terms of the District Health Management Information System Policy, the Director-General has the overall ownership of the District Health Management Information System. In this regard all data from District Health Information System is owned by the Department of Health and access to the data is regulated by the Department. All changes to the system, its data elements and analytics will need to be authorised by the NDoH. The bidder will have no authority to share the District Health Information System data with third parties.

All requests for access to the data will be reviewed and be subject to the approval of the Director-General or the Provincial Head of Department or a delegated official.

7. Bid Evaluation Criteria

7.1. Due diligence

The NDoH reserves the right to conduct supplier due diligence prior to final award or at any time during the contract period. This may include site visits to assess the capacity of the bidder in relation to its people, technology and system support capacity requirements as set out in the scope of work.

Bidders may be required to make a presentation to the Bid Evaluation Committee to qualify the proposal.

7.2. Bid evaluation Stages

As part of the normal procurement process, the evaluation of a tender consists of the following stages.

- Stage 1: *Mandatory requirements*
- Stage 2: *Functionality evaluation*
- Stage 3: Price evaluation
- Stage 4: Historical Disadvantaged Individual (HDIs) evaluation

7.3 Mandatory requirements

NB: Failure to submit/attach proof of the following requirements with the bid will lead to the disqualification of the bidder's proposal:

7.3.1 Compliance with all Tax Clearance requirements: Attach Valid Tax Clearance Certificate/ Tax Compliance Status Pin, Central Supplier Database Number, where consortium/joint ventures/ sub-contractor are involved, each party to the association must submit separate Tax Clearance requirements.

7.3.2 Professional registration requirements

The bidder must be registered with at least one of the following professional bodies:

- Centre for Internet Security (CIS)
- Information Technology Association (ITA)
- The Media, Information and Communication Technologies Sector Education and Training Authority (MICT SETA)

The bidder must provide a copy of a valid certificate or membership card indicating clearly:

- the regulator or professional body's name,
- the bidder's name and the date of issue of certificate or membership card and if applicable, the expiry date

7.3.4 Submission of complete bid documents

Bidders must submit all required documents by the closing date and time of the bid.

7.3.5 Bid document sets (non-mandatory)

Bidders are requested to submit three sets of bid documents according to the instructions below:

Set 1: Hard copy (constitutes the legally binding bid document)

All SBD and Bid Response forms must be completed in black typescript. All fields must be completed. Where no electronic entry field is provided, bidders must complete the forms in black ink, handwritten in capital letters. Where information as requested is not relevant, this should be indicated with N/A. After completion, the full PDF document and the Bid Response document must be printed. Bidders must submit their complete bid in hard copy format (paper document). The signed hard copy of the bid document will serve as the legal bid document.

The duly authorised designee of the entity submitting the bid must attach his/her official signature where indicated on the documents. All pages in the bid submission must be initialled by the same person with black ink. The use of correction fluid is not acceptable. Any change/s must be clearly indicated and initialled. Where certified copies of documents are required, the person certifying such documents must not be associated with the bidder in any way.

Set 2: Scanned version of Set 1. (i.e., Scanned complete hard copy)

Bidders must submit a PDF version of the entire signed hardcopy bid, including all certificates and documents requested.

Set 3: Electronic version of bid documents

Bidders are requested to submit the electronic versions of all bidding documents to facilitate data extraction. The PDF document must be submitted as editable PDF.

Set 2 and Set 3 must be included on an USB and submitted in a sealed package with Set 1. The full name and address of the bidder, the bid number and the closing date of the bid must be clearly indicated on the package.

All three sets of bid documents must be submitted before or on the closing time of the bid (date and hour specified in the bidding documents). Late submission of bid documents will lead to the disqualification of the bidder. Incomplete bids will be deemed non-responsive.

8. Bid scoring guidelines

ASSESSMENT	DESCRIPTION	SCORE
Excellent	Exceeds the required standard. Response answers the question with precision and relevance. Includes improvement through innovation and added value. Definite capacity to deliver the service	5
Good	Meets the standard required. Comprehensive response in terms of detail and relevance to the question. Likely capacity to deliver the service.	4
Acceptable	Meets the required standard in most aspects but fails in some areas. Acceptable level of details, accuracy and relevance Likely capacity to deliver the service	3
Limited	Fails the required standard in most aspects but meet some. Limited information / inadequate/only partially addresses the question. Questionable capacity to deliver the service	2
Inadequate	Significantly fails to meet the required standard. Inadequate detail provided / questions not answered/answers not directly relevant to the question. Unlikely capacity to deliver the service	1
Not Eligible for the consideration	Completely fails to meet the required standard. Response significantly deficient. Definite incapacity to deliver the service.	0
