In this contract, technology transfer occurs within arrangements between a marketing authorization holder (applicant) and a local manufacturer (bidder) as part of initiatives to promote domestic pharmaceutical production. Where, the market authorisation holder remains on the Medicines Registration Certificate (MRC), while the local manufacturer—operating under a technology transfer agreement—executes specified manufacturing processes for the supply of a specific item within South Africa.

3. BID DOCUMENT CHECK LIST

All bid documents listed below must be **compiled, indexed, and submitted** in the **exact sequence** specified.

Each document listed must be supported by the relevant annexure, if applicable.

All bid documents **must be duly signed** by a person **authorised to legally bind the bidder**.

Non-compliance with any of these requirements **may render a bid non-responsive**, resulting in **disqualification from further evaluation** in accordance with applicable procurement regulations.

The table below serves as a guide to the documents that should be included in the bid submission. While some documents are strongly recommended, they are not considered during the bid evaluation process, however, are required for administrative purposes. Adhering to the suggested compilation sequence is highly recommended.

The absence of mandatory documents will impact the bid's responsiveness. Submission of bid documents is required unless a specific document is not applicable, in which case the bidder must explicitly indicate "N/A" and provide a justification for its exclusion. If a section is blacked out in the "N/A" field, it is not considered a valid selection option for the bidder.

4.1. BID DOCUMENTS

Bidders are required to submit responsive bids by completing all the price, mandatory response fields, the excel bid response documents i.e. pricing schedule and Categorization of Directors Profile.

P_s = Points scored for price of tender under consideration

P_t = Price of tender under consideration

P_{min} = Price of lowest acceptable tender

7. PREFERENCE FOR LOCALLY PRODUCED PRODUCTS

The NDoH reserves the right to consider locally produced products offered by bidders. Bidders must indicate the manufacturing location of the products in the Excel Bid Response Document.

To provide preference to locally produced products, the definition of a "locally produced product" is limited to the formulation and conversion processes that use materials and components to manufacture medicines (including raw materials, whether imported or locally produced, for active pharmaceutical ingredients (API) and excipients to produce finished products) within the Republic of South Africa. A locally produced product includes the **fill and finish of sterile products** (vaccines small and large volume parenterals. However, it **excludes** the **fill, finish, and packaging of non-sterile dosage forms** such as solids, liquids, sterile drops, and semi-solid formulations.

Providing that awarding locally produced products does not compromise security of supply or affordability, the quantities allocated for award as locally produced products, may be allocated proportionally, aligning with the percentage of the product volume that will be locally produced.

Preference will be given to bidders of locally produced products if:

- A certified copy of the valid License to Manufacture, as per section 22C(1)(b) of the Medicines Act, for the local manufacturing site (including all applicable annexures) for medicines, complementary medicines, and medical devices/IVDs is submitted.
- The local manufacturing site is listed on the MRC issued by SAHPRA, indicating that the manufacturer is located in the Republic of South Africa.
- The Single Exit Price (SEP) published on the SEP database is not exceeded.
- The local manufacturer has demonstrated the capacity to supply the required volumes based on the data provided in the Excel Bid Response Document.
- The bidder complies with all other clauses contained in this SRCC.

If the necessary documentation or evidence is not included in the bid documents, the bid will not qualify for preference as a locally produced product.

8. VALUE ADDED TAX

All bid prices must be inclusive of 15% Value-Added Tax. Failure to comply with this condition will invalidate the bid.

9. SUBMISSION OF BIDS

All bid documents must be **compiled, indexed, and submitted** in the **exact sequence** specified. Each document must include the relevant annexure, as indicated in the bid document checklist (**Annexure A**) attached to the bid pack.

- Submission of bid documents is required unless a specific document is not applicable, in which case the bidder must explicitly indicate "N/A" and provide a justification for its exclusion. If a section is blacked out in the "N/A" field, it is not considered a valid selection option for the bidder.
- All bid documents must be signed in the spaces provided within the document, preferably in permanent black ink.
- All bid documents must be initialled at the bottom of each page in the space provided with "Bidder's Signature...", preferably in permanent black ink.
- Where certified copies of original documents are submitted, bidders must ensure that the certification is original, signed, and dated by the Commissioner of Oaths.
- If SAHPRA issues an electronic certificate or license, a hard copy must still be provided. This printed version must be certified by a Commissioner of Oaths.
- All SBD bid documents must be fully signed and witnessed, where required, preferably in permanent black ink. All mandatory documents as specified in **Annexure A** must be valid at the time of bid closure. The NDoH will not accept updated mandatory bid documents after the bid closure date, unless the document was valid at the time of bid closure but is set to expire during the bid validity period. In such cases, an updated document may only be submitted if specifically requested by the Department.
- Bidders who do not comply with any of the mandatory requirements will be deemed non-responsive and may not be considered for evaluation.

Set 1: Hard copy legally binding bid documents.

Bidders must complete all SBD, PBD and Bid Response forms in permanent black ink, or typed. Where no electronic entry field is provided, bidders must complete the forms in permanent black ink, handwritten. All bid documents must be signed in ink in the spaces provided within the document. 11. LATE BIDS

Bids received after the closing date and time at the address indicated in the bid documents will not be accepted for consideration and, where practical, will be returned unopened to the bidder.

12. COUNTER CONDITIONS

Bidders' attention is drawn to the fact that amendments to any of the bid conditions or setting of counter conditions by bidders may result in the invalidation of such bids.

13. FRONTING

The NDoH supports the spirit of the RDP Goals and HDI empowerment and recognizes that true empowerment can only be achieved through individuals and businesses acting in accordance with the Constitution, and in an honest, fair, equitable, transparent, and legally compliant manner. In this regard, the NDoH condemns any form of fronting.

The NDoH encourages bidders to act with honesty during their bid preparation process. Should any fronting, bid rigging, or collusion practices be suspected, the NDoH reserves the right to conduct investigations to verify the accuracy of the representations made in bid documents. Any form of misrepresentation, corruption, or fraudulent practice identified on the part of the bidder may result in serious consequences as specified in the relevant regulations. These consequences may include prohibiting the offending bidder from conducting business with the public sector for a period not exceeding 10 years.

14. SUPPLIER DUE DILIGENCE

The NDoH reserves the right to conduct supplier due diligence prior to the final award. This may involve such steps as the Department, in its sole and absolute discretion, deems necessary to satisfy itself regarding, inter alia, the legal, compliance, financial, and operational status and condition of the bidder, supplier, and/or its affiliates (as the case may be).

This may include site visits to assess whether:

- The item is manufactured at the site specified in the bid documentation;
- The bidder has the capacity to meet their allocated or agreed demand.

15. COMMUNICATION

The NDoH reserves the right to communicate with bidders post bid closure and during the bid validity period, for the purpose of seeking clarification on documents submitted or extending the validity period of the bid, if necessary. All communication between the bidder and the NDoH must be conducted in writing. Any communication between a bidder and any government official or a person acting in an advisory capacity to the NDoH regarding this bid, during the bid validity period, is strongly discouraged.

Any communication between the NDoH and the bidder, after bid closure may not provide any such bidder with a competitive advantage.

Information obtained during clarification may be shared with relevant committees involved in the tender process, in accordance with applicable procurement protocols and competition regulations.

Appropriate consultation and communication with the contracted suppliers will take place prior to any approval being granted.

19. REGISTRATION ON DATABASES OF PARTICIPATING AUTHORITIES

- Award the same item as a multiple award to various suppliers (two or more) to address high volume requirements, security of supply and product availability.
- Negotiate prices and minimum order quantities and volumes.
- Award an item with a specification deviation.
- Only award one item in a procurement class. The item could be awarded to multiple suppliers as a split award.

In cases where the tender does not achieve the most economically advantageous price, the NDoH reserves the right not to award that item.

20.1. TRAINING

Contractors shall collaborate with the NDOH and provide end-user training on the handling and vaccination process of their specific product(s), as and when required, for the duration of the contract.

20.2. COLD CHAIN STORAGE AND DISTRIBUTION

Storage and distribution of pharmaceutical cold chain items must comply with Board Notice 50 of 2015, which contains the South African Pharmacy Council's amendments to the minimum standards set out in Annexure A of the Rules Relating to Good Pharmacy Practice. These Rules were originally published in Board Notice 129 of 2004, *Government Gazette No. 27112* of 17 December 2004, and amended in terms of Section

35A(b)(ii) of the Pharmacy Act, 53 of 1974.

20.3. SPLIT AND MULTIPLE AWARDS

The NDoH reserves the right to issue split or multiple awards, where necessary, to facilitate security of supply. The following will be taken into consideration when contemplating a split or multiple award:

- Source of API and manufacturing site;
- Capacity to meet expected demand as per published estimates in the Bid Response Document;
- Estimated volume to be supplied;
- Risk to public health if the item is not available;
- Past compliance of the bidder with contractual obligations.
- The Minimum Order Quantity (MOQ) for split or multiple awards will be negotiated and aligned to the smallest acceptable value.

Two-way split awards will be made in accordance with the following schedule based on the points scored:

CATEGORY	DIFFERENCE BETWEEN POINTS SCORED	RECOMMENDED PERCENTAGE SPLIT
A	Equal points	50/50
B	< 5 points	60/40
C	>5-10 points	70/30
D	>10-20 points	80/20
E	>20 points	90/10

Where a split of **three (3) or more** bidders is contemplated, the total score of each will be applied in the following formula to determine the percentage (%) split for each bidder:

For example, the percentage split for the highest scoring bidder will be calculated as follows:

$$\% \text{ Split} = T1/(T1+T2+T3)$$

Where :

- T1 = Score of highest Scoring Bidder
T2 = Score of second Highest Scoring Bidder
T3 = Score of third Highest Scoring Bidder

20.4. THERAPEUTIC CLASS AWARDS

The *Policy for Classifying Medicines into Therapeutic Classes for Purposes of Therapeutic Interchange* (as published: https://www.health.gov.za/wp-content/uploads/2021/08/Therapeutic-Interchange-Policy_July2021_final.pdf; July 2021) defines a therapeutic class as a group of medicines that contain active ingredients with comparable therapeutic effects. Medicines within a therapeutic class may not necessarily belong to the same pharmacological class, may differ in chemistry or pharmacokinetic properties, and may have different mechanisms of action, adverse reactions, toxicity, and drug interaction profiles. In most cases, however, these medicines exhibit similar efficacy and safety profiles when administered in equipotent doses for a specific indication

The ministerially appointed National Essential Medicines List Committee (NEMLC) is responsible for formulating and revising the Standard Treatment Guidelines (STGs) and the Essential Medicines List (EML). Therapeutic classes are specified in the "Medicine Treatment" section of the national STGs, which lists a class of medicines followed by examples, such as HMG-CoA reductase inhibitors (Statins) – e.g., simvastatin. These therapeutic classes are designated when no member of the class offers a significant benefit over another for a specific indication. The NEMLC may designate therapeutic classes for a condition, where applicable.

Such therapeutic classes may be utilised during the contracting process to achieve the most economically advantageous contracts, maximize market volume, and increase

competition, thereby offering potential cost efficiencies through robust competition. A single member from the therapeutic class may be awarded on the contract.

Therapeutic classes are not applicable for this tender.

20.5. SERIES AWARDS

Items will be considered to be awarded in a series where:

Dose titration is required e.g. a single molecule in a class is awarded across all strengths and pack sizes to allow for incremental dosing. Such an approach is required to ensure seamless dose titration, simplify supply and distribution, support healthcare worker use and acceptance, and improve patient adherence.

Series awards not applicable for this tender.

20.6. PROCUREMENT CLASS

A procurement class is a grouping of medicines or vaccines with the same active ingredient but different presentations, pack sizes, strengths, formulations, or dosage forms. It is used when market competition is limited, or specific product requirements are not clinically essential. Placing these items in a procurement class promotes fair comparison, competition, and economies of scale, while allowing flexibility to adapt to market availability and ensure continued access. Only one item specification is awarded within a procurement class. During price evaluation the cost per fully immunised child (EPI schedule) will be considered.

20.7. REFERENCE PRICING

A medicine or vaccine listed on the Essential Medicines List (EML), endorsed by the National Essential Medicines List Committee (NEMLC) or the National Advisory Group on Immunisation (NAGI), and recommended for use in the public sector, may be assigned a **benchmark reference price** by the Department as a proactive cost-containment measure to ensure affordability and long-term sustainability. This price is typically informed by local procurement data, international pricing benchmarks, and relevant market intelligence. The benchmark reference price serves as the recommended price and informs price negotiations and contract award decisions.

20.8. NEGOTIATIONS

The NDoH reserves the right to negotiate prices, minimum order quantities, and supply volumes with bidders prior to the award of the contract. The negotiation process will be conducted at the discretion of the NDoH and in a manner it deems appropriate.

Proposed minimum order quantities (MOQs) should facilitate direct delivery to health establishments.

Where applicable, if an item is advertised as a single item but is included in a therapeutic class and is recommended for award within that class, the Department reserves the right to combine the volumes and award only one item number. In such cases, the Department will negotiate the awarding of combined volumes with the preferred bidder/s.

In addition, the NDoH reserves the right to review prices, minimum order quantities, and supply volumes with successful bidders after the contract award, as part of the contract management process. For more information on price adjustments based on systematic review refer to section 22.

20.9. NON-COMMITMENT

The NDoH reserves the right not to award, in part or in full. The Department also reserves the right to withdraw or amend any of the bid conditions, by providing notice in writing to all bidders prior to the closing of the bid or post-award.

If an incorrect award has been made, the NDoH reserves the right to remedy the matter in any manner it deems fit, including the cancellation of the contract.

21. POST AWARD CONDITIONS

Regulation 16(A)6.6 of the Treasury Regulations, issued under the Public Finance Management Act, 1999 (Act No. 1 of 1999), allows the Accounting Officer of a department, constitutional institution, or public entity to request participation in any contract arranged through a competitive bidding process by any state organ. This participation requires written approval from both the state organ and the relevant contracted suppliers.

The NDoH may change treatment protocols and/or product formulations where required, due to emerging clinical evidence, disease profiles, safety or resistance

patterns, and the availability of items registered in terms of the Medicines Act at the date and time of bid closure. In these circumstances, the NDoH reserves the right to cancel the contract for an item or adjust the quantity awarded based on projected changes in demand. The Department will notify the contracted supplier within a reasonable time of the expected change. However, where patient safety is a concern, these changes may be implemented with immediate effect.

22. PRICE REVIEW

The NDoH anticipates three types of price review processes that may be implemented during the duration of this contract:

- A routine adjustment to mitigate foreign exchange fluctuations;
- An exceptional adjustment to mitigate significant short-term foreign exchange fluctuations; and
- A systematic review of prices for comparable products available in the local and international marketplaces.

22.1. ELIGIBILITY RELATING TO RATE OF EXCHANGE ADJUSTMENTS

Eligibility for price adjustments relating to foreign exchange risk depends on the submission of a complete price breakdown per instructions below for all relevant products; and assessment of the rationality of this price breakdown by the NDoH.

22.2. INSTRUCTIONS FOR PRICE BREAKDOWN

- The price breakdown must be completed on the signed bid response document as well as the electronic version. The delivered price must be divided across five components.
 - Active Pharmaceutical Ingredient/s (API);
 - Formulation;
 - Packaging;
 - Logistics (this includes transportation, warehousing, and distribution);
 - Gross margin (remaining portion).

- The sum of these categories must be equal to 100% of the delivered price for the line item.
- The local + imported portions of the first three components must add up to 100% within each component (e.g. Portion of API attributable to local + Portion of API attributable to import = 100% of specific API component).
- VAT must be apportioned equally across all components and not regarded as a separate component.
- Labour must be apportioned appropriately across the relevant components.
- Breakdown must be in percentage format to the closest whole percentage (e.g. 20%).
- The NDoH reserves the right to engage with bidders to verify any of the components of the bid price, which may include audit of invoices and related documentation.
- Items for which price breakdowns were not presented in the prescribed format at the time of bid closure, will render such item(s) ineligible for price adjustments.

22.3. PRICE ADJUSTMENTS RELATING TO FOREIGN EXCHANGE RISK

Only the portion of the bid price facing foreign exchange risk will be adjusted. This portion is determined by the price breakdown on the signed bid submission.

Adjustments are always calculated using the original awarded contracted price as the base.

Price adjustments relating to foreign exchange will be based on the percentage change between the relevant base average rate of exchange (RoE) and an adjustment average RoE. Rates are sourced from the Reserve Bank (www.resbank.co.za).

Eligibility for favourable Contractual Price Adjustments may be withdrawn considering evidence of poor compliance with contractual obligations.

Base average RoE for this tender will be as follows, per currency:

CURRENCY	BASE AVERAGE RATES OF EXCHANGE AVERAGE FOR THE PERIOD 01 FEBRUARY 2025 TO 31 JULY 2025
Rand per US Dollar	R18.21
Rand per Br Pound	R23.99
Rand per Euro	R20.32
Rand per Yuan Renminbi	R2.52
Rand per Indian Rupee	R0.21
Rand per Swiss Franc	R21.60
Rand per Australian Dollar	R11.65
Rand per Danish Krone	R2.72

Should the bidder make use of any currency not mentioned above, the bidder must stipulate this clearly and submit the calculated average RoE for the period 1 February 2025 to 31 July 2025 using the South African Reserve Bank published rates for the specific currency.

22.4. APPLICATION FOR CONTRACTUAL PRICE ADJUSTMENTS

Official applications for price adjustment consideration must be submitted to the NDoH at cpapharma@health.gov.za before the submission deadlines specified in the tables below.

The application must contain the following information:

- Contract description;
- Date of application;
- CPA cycle applied for;
- Items to be considered for CPA (Item no, NSN and Description).

The application must be submitted on a company letter head, signed, scanned and submitted to the CPA mailbox (cpapharma@health.gov.za) no later than the submission date as indicated in the table below.

Where no application for an adjustment relating to foreign exchange has been received and such an adjustment would be favourable to the Department, this will be implemented automatically.

Foreign exchange adjustments may never result in a price exceeding the current Single Exit Price. With reference to Section 4.1, the supplier will only be eligible for contractual price adjustments up to the most recent Single Exit Price value as recorded in the National Department of Health (NDoH) SEP Database.

22.4.1. EXCEPTIONAL PRICE ADJUSTMENTS BEFORE START OF CONTRACT

The contracted supplier may apply for an exceptional price adjustment before the start of the contract. These will be activated if the absolute change between the base RoE and the six-month retrospective average RoE indicated in the table below fluctuates by more than 10%. This adjustment applies to eligible components subject to CPA price adjustments based on the bid closure price.

22.4.2. ROUTINE PRICE ADJUSTMENTS

Schedules for routine price reviews, and periods for calculating adjustment average RoE are detailed in the table below:

22.4.3. EXCEPTIONAL PRICE ADJUSTMENTS DURING CONTRACT PERIOD

Contracted suppliers may request exceptional price adjustments during the contracted period according to the schedule in the table below. These will be activated if the absolute change between the base RoE and the three-month retrospective average RoE indicated in the table below fluctuates by more than 10%.

REVIEW	PERIOD FOR CALCULATING ADJUSTMENT AVERAGE ROE	SUBMISSION OF REQUEST FOR PRICE REVIEW TO REACH THE OFFICE BY	DATE FROM WHICH ADJUSTED PRICES WILL BECOME EFFECTIVE

5.1	01 July 2029 – 30 September 2029	03 October 2029	01 November 2029

Suppliers who received exceptional adjustments will, thereafter, receive routine adjustments based on the average exchange rate over the preceding three months,

rather than the standard six-month historical average. The specific periods used to calculate the average rate of exchange (RoE) for these adjustments are outlined in the table below:

REVIEW	PERIOD FOR CALCULATING ADJUSTMENT AVERAGE ROE POST EXCEPTIONAL ADJUSTMENT	SUBMISSION OF REQUEST FOR PRICE REVIEW TO REACH THE OFFICE BY	DATE FROM WHICH ADJUSTED PRICES WILL BECOME EFFECTIVE

5	01 April 2029 – 30 June 2029	03 July 2029	01 August 2029

22.5. PRICE ADJUSTMENTS BASED ON A SYSTEMATIC REVIEW

The NDoH reserves the right to review both local and international market prices to identify the lowest comparable pricing. Should this review reveal prices lower than those stipulated in the contract, the Department may initiate price negotiations with the contracted supplier.

If the outcome of this negotiation is deemed unfavourable, the NDoH reserves the right to terminate the award for the item in question.

23. QUALITY

Products and contracted suppliers must conform to the conditions of registration of the product in terms of the Medicines Act for the full duration of this contract. In the event that the product and or contracted supplier does not conform to the conditions of registration of the product, NDOH reserves the right to cancel the contract.

24. DELIVERY AND QUANTITIES

24.1. DELIVERY BASIS

Firm lead times for delivery must be quoted for the duration of the contract period. Transit and storage conditions applicable to the relevant products must be adhered to at all times.

The initial lead time, as proposed in the bid response document, will be calculated from the date of award of the contract and **not** from the date of placement of the first order. This lead time may not exceed 75 calendar days from the date of award from when the contract circular signed by the National Department of health has been published.

Lead time within the contract period is defined as the time from the submission of the order to the supplier to the time of receipt by the Department, as confirmed by the Proof of Delivery document. This lead time may not exceed 14 calendar days.

Failure to comply with the contractual lead time may result in penalties being enforced, as per sections 21 and 22 of the General Conditions of Contract (GCC).

24.2. QUANTITIES

The quantities reflected in the bid are estimated and no guarantee, either explicit or implied, is given regarding the actual quantity that will be procured during the contract period. Fluctuations in monthly demand may occur.

The NDoH reserves the right to negotiate MOQs where necessary. In cases where consensus regarding MOQs cannot be reached, the bid may not be awarded.

Suppliers are required to maintain sufficient buffer stock to meet at least two months' demand for all items, in alignment with the needs of Participating Authority/Authorities.

SECTION C

25. SUPPLIER PERFORMANCE MANAGEMENT

Supplier performance management will be the responsibility of the Participating Authorities, with oversight from the NDoH. If supplier performance disputes cannot be resolved between the contracted supplier and the Participating Authority, the NDoH must be informed for corrective action.

The NDoH, in collaboration with Participating Authorities, will monitor the performance of contracted suppliers throughout the duration of this contract. This will include, but is not limited to, the following areas:

- Ongoing supplier performance monitoring through compliance visits
- Adherence to reporting requirements
- Attendance of quarterly supplier meetings
- Execution of orders and delivery performance
- Management of order cancellations and product substitutions
- Identification and correction of irrational or misaligned orders
- Delivery schedule adherence
- Assurance of continuity of supply
- Compliance with the administrative, legislative and regulatory requirements as specified in the SRCC.

25.1. COMPLIANCE WITH REPORTING REQUIREMENTS:

Suppliers must adhere to the reporting schedule and mechanism established by the NDoH. At a minimum, suppliers must submit the following information in the specified format and mechanism, after receiving training provided by the NDoH:

- All transactional data relating to orders
- A monthly age analysis
- Production pipeline data and forecasts, including:
 - Number of units of the item available (stock on hand)

- Number of units of the item in Quality Assurance, awaiting release
- Number of units of the item in the current month's production plan
- Status of outstanding orders

25.2 Suppliers will be required to attend compulsory quarterly meetings

The NDoH will schedule and hold quarterly meetings with contracted suppliers. These meetings will include, but not be limited to, a review of supplier performance and the forecasted demand for the next quarter. Suppliers may be required to present continuous improvement initiatives aimed at improving efficiencies in the supply chain, benefiting both suppliers and Participating Authorities.

25.3 ORDER PLACEMENT AND DELIVERY:

- Orders will be placed as needed during the contract period, with delivery points specified by the relevant Participating Authority/Authorities.
- The instructions on the official order form regarding supply, dispatch, and submission of invoices must be strictly adhered to.
- Under no circumstances should the contracted supplier deviate from the orders issued by the Participating Authority/Authorities, unless written instruction is received from the relevant participating authority.
- Changes to any quantities ordered may only be made upon receipt of an amended purchase order.
- A Participating Authority is under no obligation to accept any quantity that exceeds the ordered quantity.
- To facilitate the efficient implementation of the direct delivery strategy, contracted suppliers must pack orders according to the purchase order for the relevant health establishment.
- Only orders made using an official, authorized purchase order format are valid.
- Suppliers must acknowledge receipt of all purchase orders received from Participating Authorities in the manner stipulated by the relevant Participating Authority.

25.4 ORDER CANCELLATIONS AND SUBSTITUTION:

The Participating Authority/Authorities reserve the right to cancel any order if the lead time exceeds 14 days. In such instances, they may, at their discretion, procure supplies of equivalent quality and quantity as a substitute for the goods not delivered in accordance with the contract, in line with Section 21.6 of the General Conditions of Contract.

Should this occur, the Participating Authority may source the item from an alternative supplier, and any cost difference between the contracted supplier's price and the price of the substitute item will be for the account of the contracted supplier.

25.5 IRRATIONAL OR MISALIGNED ORDERS:

In cases where an order is received that appears to be irrational or misaligned with estimates, the contracted supplier must consult the relevant Participating Authority prior to processing the order.

In the event of short supply, incorrect delivery, or misaligned orders, the supplier must issue a credit note within 15 calendar days of receiving both the credit request and the relevant supporting documentation from the participating authority.

25.6 DELIVERY ADHERENCE

- Products and related documentation must be delivered in accordance with the terms, conditions, and delivery instructions stipulated in the purchase order.
- The information on invoices and documents relating to delivery must comply with the minimum data requirements as defined by the NDoH. The NDoH reserves the right to update these minimum data requirements as needed (Annexure B).
- Invoices must clearly reflect both the "proprietary name" (brand name/trade name), which is unique to a particular medicine and approved under section 15(4) of the Medicines Act, and the item description as it appears in the contract circular and Master Health Product List (MHPL).

- The supplier must ensure that products are delivered in accordance with the appropriate storage conditions, as per the product's conditions of registration. Delivery is deemed complete upon signature of receipt by the delegated official.
- Any discrepancies between the invoice and the physical stock, or damaged stock, must be reported to the contracted supplier within a reasonable time, or as otherwise arranged with the supplier. This time period should allow for verification of the quantities received upon delivery.

Contracted suppliers will be responsible for the collection of goods delivered erroneously or in an incorrect condition, as formally arranged in consultation with the Participating Authorities. The Participating Authorities may recoup any expenses associated with the failure to collect such goods in accordance with the agreement.

25.7 CONTINUITY OF SUPPLY

Contracted suppliers must maintain at least two months' supply of the estimated quantity at the start of the contract and ensure a continuous supply throughout the contract's duration. If order fulfilment for a specific item deviate by 20% from the average monthly estimate for three consecutive months on a rolling basis, suppliers must notify the NDoH/Contract Management Unit (CMU) within two weeks of becoming aware of the discrepancy. In such cases, the supplier should engage with the NDoH and the relevant participating authority to update the demand forecast, align supply volumes accordingly, and prevent supply challenges.

Suppliers are expected to engage regularly with Participating Authorities to review demand and plan proactively to ensure uninterrupted supply.

Contracted suppliers must promptly inform all participating authorities and NDoH of any circumstances that may result in an interrupted supply, including but not limited to:

- Regulatory actions that may impact their GMP status or the status of entities on which they rely;
- Anticipated issues with the availability of active pharmaceutical ingredients (API);
- Industrial actions;
- Challenges with the manufacturing pipeline;
- Any other supply-related challenges.

Official communication regarding continuity of supply should be directed to stockalert@health.gov.za , as well as the Participating Authorities.

Official communication regarding payment challenges should be directed to medacc@health.gov.za , as well as the relevant Participating Authorities.

All official communications must include details of corrective actions taken by the contracted supplier to ensure continuous supply.

If the contracted supplier is unable to supply the awarded item, the supplier is required to source an alternative product that meets the same specifications.

In the case of a split or multiple awards, the alternative product must not be sourced from another contracted supplier for the same product. The alternative product must be supplied at the current price of the contracted item.

Prior to supplying an alternative product including items authorised for procurement utilising Section 21 and Section 36 of the Medicine Act, the contracted supplier must seek approval from the NDoH and provide a sample to the two health establishments as outlined in section 5.1.5 of this SRCC. The contracted supplier must also provide the following information to the NDoH:

Special Requirements and Conditions of Contract HP16-2027EPI

- Name of the product to be supplied;
- Quantities to be supplied;
- The period for which the product will be supplied. This provision applies only to emergency supply situations and cannot be used for routine or continuous supply.

If a contracted supplier is unable to supply the contracted item for a period **not exceeding six months**, the NDoH reserves the right to reallocate volumes proportionally to an alternative contracted supplier for the duration of the supply interruption.

If a contracted supplier is unable to supply a contracted item for a period **exceeding six months** for any reason, the NDoH reserves the right to cancel the contract, as outlined in Section 23 of the General Conditions of Contract (GCC), Clause 21.2.

Suppliers may be penalized for failing to meet the contractual lead time, as stipulated in Section 22 of the GCC.

26. REPORTING

The NDoH will provide the requirements for reporting and successful bidders will be assisted with complying with these requirements. The National Department of Health may, from time to time and within reason, add to the reporting requirements. Any changes to reporting requirements or the reporting mechanism will be communicated in writing by the Directorate: Affordable Medicines.

27. PACKAGING, LABELLING AND BARCODES

28. SHELF LIFE

- Unless SAHPRA has approved a shorter shelf life, products must have a shelf-life of at least 12 months upon delivery.
- Contracted suppliers may apply in writing to Participating Authorities to supply a product with a shorter shelf life provided that:
 - Applications are accompanied by an undertaking that such short-dated products will be unconditionally replaced or credited before or after expiry and,
 - Applications are approved by the Participating Authorities before execution of orders; and,
 - Upon notification of the remaining expired stock, such products will be collected and disposed of by the supplier at their own cost and,
 - Failure to collect the products within 30 days after written notification to the supplier will result in the disposal of the product by the Participating Authority for the account of the supplier.

- Unless otherwise agreed to, any Participating Authority may, without prejudice, decline to accept the product with a shelf-life of less than 12 months.

29. DISCONTINUATION OF CONTRACTED PRODUCT SUPPLY

It is the responsibility of the contracted supplier to ensure continuous supply of the contracted product until the end date of the contract, as stipulated in the Letter of Acceptance (SDB 7.1).

If the contracted supplier foresees a potential long-term interruption in supply, the supplier must submit a written letter to the Director-General of Health at least six months prior to the anticipated interruption. The letter must include the following:

- The reason for the long-term interruption.
- The impact this will have on the contract.
- The proposed solution or suggested way forward.

The supplier may only interrupt supply to a Participating Authority after informing the Director-General of Health and receiving written approval from the NDoH. It is the responsibility of the NDoH to communicate the outcome of this matter to the Participating Authorities.

If the contracted supplier decides to discontinue a contracted product with immediate effect, the Department reserves the right to source the item from an alternative supplier. If the price from the alternative supplier exceeds the contracted price, the supplier discontinuing the product will be liable for the price difference for a period of six months.

30. CEDING, MERGERS, TAKE OVERS AND CHANGES IN SUPPLIER DETAILS

If a contracted supplier plans to merge with or be acquired by another entity, or intends to cede the contract to another supplier, the contracted supplier must inform the NDoH in writing as soon as they become aware of such an event.

Should the contracted supplier plan to cede a contracted item to another supplier, they must submit an official request in writing to the NDoH at least three months prior to the proposed effective date. The NDoH reserves the right to either accept or decline the request to transfer the contractual obligations to the new supplier under the current terms of the contract, or to cancel the contract altogether.

The contracted supplier is also required to inform the NDoH as soon as they become aware of any changes to their address, name, or contact details. These updates must also be reflected on the Central Supplier Database (CSD).

31. CANCELLATION OF CONTRACT
